

MEETING THE PACKAGING CHALLENGE

Simplex & Duplex model for zipper pouch

FC-06S36 / FC-08S24Z / FC-08S16DGZ

Greeting

GREENPACK (GP) was founded to manufacture and to provide Pre-Made Pouching (PMP) systems that include weighing and intermittent rotary pouch machines since 2005. Our machines are manufactured in our facility in Seoul, South Korea and our distribution has grown to a global scale. Our machines cover a wide range of PMP sizes and weight

As a result of global expansion, there are more than 10 agents in 3 continents and products are supplied to global food, chemical, cannabis, supplement, and pharmaceutical companies. In the USA and Canada, Right Stuff Equipment (RSE), a leading American integrator of packaging lines for these same industries, supports the GP business. RSE has a full complement of Sales, Engineering, Technical staff as well as a complete fabrication facility in Denver, Colorado to make sure the correct set of equipment is provided.

Together we can provide your company the right Pre-Made Pouching (PMP) systems to meet your demands and make you more profitable.

- **GREENPACK** is always with you
