

Liquid Filling Solutions

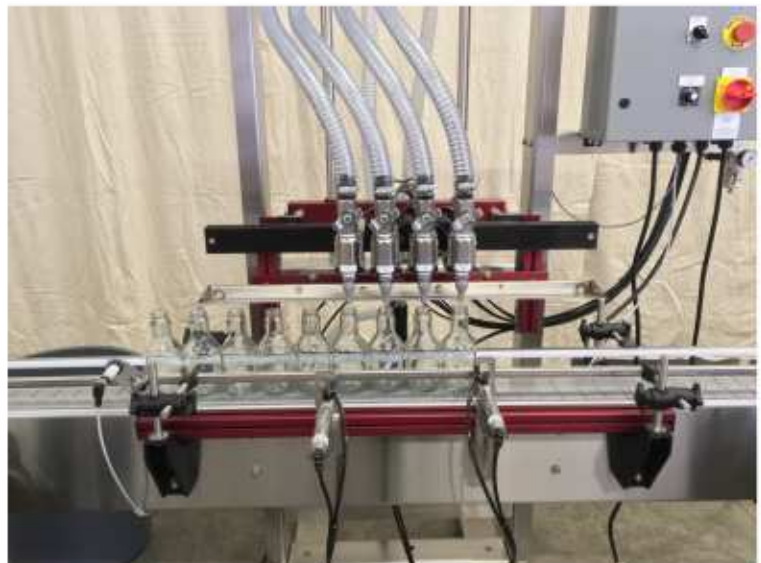

Economy Gravity Filler

Low cost Entry Level Gravity Filling solution available for quick delivery.

Automatic Gravity Fillers provide a volumetric time-based fill for thin to medium viscosity products. The Automatic Gravity Filler is ideal for filling thin liquids with consistent viscosity. Volumetric time gravity filling method produces repeatable and accurate fill volumes.

These fillers are commonly used in the food and beverage, cleaning and specialty chemical, pharmaceutical, cosmetic and personal care industries for various filling projects. They work well in a wide variety of applications including sanitary, hazardous, flammable, and corrosive products and environments.

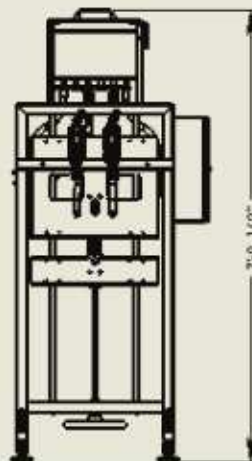

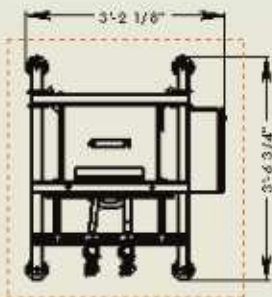

Economy Gravity Filler

Features

- Heavy duty 304SS free standing frame
- User friendly PLC and touch screen HMI
- Available with 1 to 4 fill heads
- Adjustable throttling valves on each fill head
- ¾ 316 SS fill head assemblies
- Stainless steel
- Float system and manual product inlet valve
- 120 volt 20 amp 80 psi @ 2cfm
- Front panel start and emergency stop
- Made in the USA

Options

- Stainless steel drip tray
- Automatic bottle indexing
- Poly product reservoir
- Sanitary upgrade for fill heads and product reservoir

Applications:

- *Water
- *CBD and Essential Oils
- *Vape and E-Cig
- *Distilled Spirits
- *Household Chemicals
- *Detergents
- *Degreasers
- *Paints/Stains
